For more info or support contact [CustomerService@tandemkross.com](mailto:CustomerService@tandemkross.com)

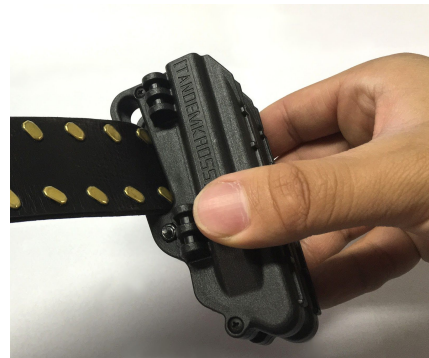

1. The Quick Grip magazine pouches are designed to support a wide variety of single stack .22lr magazines. The product has been thoroughly tested with the magazines below but may support a wide variety of others.

- Ruger Mark II / III / 22/45 & LITE
- Smith & Wesson SW22 Victory
- Browning Buck Mark Pistols
- Browning Nomad
- Beretta U22 Neos
- Colt Woodsmen
- Colt Cadet
- High Standard
- Stoeger Luger

2. Quick Grips can be connected together by pushing the bar half of the hinge into the claw half of the hinge. Quick Grips can be detached from each other by pulling on them.

3. Quick Grips can be threaded onto a belt or similar strap by feeding the tip of the belt/strap through the loops on the back of the Quick Grip. The pouch should be on the outside face of the belt.

5. If the pouch is too tight or not tight enough for the magazine, it can be tightened or loosened by adjusting the tension screw located by the image shown. Turning Left loosens and turning Right tightens.

**Note: SW22 Victory magazines require a reduced tension**
